

WEAPON TO SCHOOL

(Date)

Dear Parents:

Today, we had a situation involving a student who brought a weapon and bullets to school. The student had shown these items to some other students, who then told a staff member. The administrators went to the student's classroom and brought the student to the office. The principal confiscated an unloaded handgun and bullets from the student's backpack. It does not appear that the student brought these items to school with the intent of causing harm to others. Law enforcement was called and the student was arrested.

School safety is of the utmost importance to us. Please continue to talk with your students about school safety, the danger of weapons in school, and the importance of sharing any information they may have with adults.

Thank you,

(Principal name)
