

### Highline Public Schools

Published by Tove Tupper (?) · January 31 at 3:45pm · 🌐

We welcome all students and families, regardless of their background or birthplace. The US Supreme Court has established that public schools have an obligation to educate ALL students who reside in their communities, regardless of immigration status. That is the law of the land. We stand with the law and with our students.

We have said it before and we will say it again... Our students are brilliant, beautiful and brimming with promise, and we recognize that they need our protection, advocacy and reassurance now more than ever.

#WeAreHighline – ALL of us.

Our school board is sending an unequivocal message of protection and reassurance to all students and families in the district. At last night's meeting, the board adopted a resolution that ensures all students feel safe, welcome, and respected at school. A copy of the resolution was sent to all families and staff, along with a message from Superintendent Susan Enfield. Read the letter to families and the resolution: <http://bit.ly/2iOB6Rq> #WeAreHighline

Our greatest role models for tolerance and courage are our very own Highline students. The remarkable students in the Highline High School Student International Rescue Committee inspire and challenge each of us to "respect people the way that we want to be respected [and] strive to live out the promise of the American ideal." We encourage you to read these students' Statement of Solidarity. <http://bit.ly/2hWGoee> #WeAreHighline
